ENEMY SLIPPED AWAY.

Terrific Heat Upsets the Plans of the Americans.

CAVITE PROVINCE CLEARED.

Movements of Wheaton's Men a Success, However, as the Filipinos Were Disorganized and Routed With Heavy Loss.

Manilla, June 12.—The Filipino occupation of the province of Cavite has been broken, and, as the result of the present movement, the Americans now control the important coast towns of Paranaque and Las Pinas, while a long line of insurgent trenches facing our south line has been cleared.

The insurgents have again proved their facility as dodgers, between 3,000 and 4,000 warriors, who seemed destined to be captured, having disappeared, the majority sliding away under cover of the night, after fighting the Americans all day. Some others came to meet our troops, with protestations of friendship.

The Thirteenth Infantry lost one man killed and six wounded, the Ninth Infantry one killed and five wounded, the Fourteenth Infantry three wounded, and the First Colorado volunteer regiment 11 wounded.

The work was the hardest our army has seen. The battlefield stretched out across the entire isthmus from Laguna de Bay to the harbor. While the troops were advancing, the army gunboat Napidan, in the river near Taguig, shelled the enemy, killing several of them. The monitor Monadnock and the gunboat Helena shelled Paranaque and Las Pinas all day with the full power of their batteries.

The Filipino sharpshooters kept in hiding until the American lines had passed, and then attempted to spot stragglers from the trees. Owing to their poor marksmanship, this was without result.

The whole country proved to be a succession of small hills, with boggy ground between the high, thick grass, and bushes in the hollows, which greatly added to the difficulty of the advance, but gave shelter that saved many from the enemy's bullets. Our men threw away their blankets, coats and even haversacks, stripping to the waist and trusting to luck for food. Water could not be obtained, and there was much discomfort after the canyons were emptied.

At the outset the Colorados, the Ninth Infantry and the Twenty-first Infantry forced the line of insurgent trenches, wheeled to the left and drove the enemy toward the lake. During this maneuver the Filipinos in concealed trenches on the right opened an enfilading fire, but the brigade, partly owing to the high grass, had few hit. The Ninth Infantry crept around to the right, flanking the trenches, driving out the Filipinos and killing many of them.

The Colorado regiment advanced to the lake. Two companies encountered trenches on top of a knoll, where the Filipinos stood waist high above a trench, pouring a volley upon the advancing Americans. The Colorado troops charged and drove them out, Lieutenant Colonel Moses being wounded in the arm as he jumped into the trench.

In the meantime General Wheaton's column advanced one and a half miles toward Paranaque, where the Americans found a strong trench on a ridge, out of which they drove the Filipinos by hard fighting.

The enemy tried to flank the dismounted troops of the Fourth cavalry, accompanying Major General Lawton, and at the same time they made their only advance, throwing a skirmish line to flank the Fourteenth Infantry, but they were easily repulsed, the American artillery coming to the crest of the hill and shelling them.

In the afternoon General Wheaton's brigade, headed by General Lawton, encountered a large force of Filipinos in the shelter of the trees. General Lawton had a narrow escape. In the first volley of the enemy the horses of three of his staff officers were shot from under them. The Colorado regiment bore the brunt of this attack and dispersed the Filipinos.

Hardly had they finished off that lot when a large force appeared in the rear, which the Ninth Infantry and a part of the Colorado regiment drove away. By this time nearly the whole division was around Las Pinas.

The Americans camped for the night south of the town and in the midst of a heavy rain. In the morning General Wheaton advanced upon Las Pinas, with a troop of cavalry, the Twenty-first Infantry, the Colorado regiment, part of the Ninth Infantry and two mountain guns, crossing two streams and entering the town without firing a shot.

CLEVELAND STRIKE.

An Attempt Made to Run the Cars on the Tied-Up Lines.

Cleveland, June 12.—Owing to a strike of the motorman and conductors, the Big Consolidated Electric railway lines have been practically tied up.

President Bryan announced that no more conferences would be held with the company unless the officers seek out and treat with the union. Not a car will be run on any of the lines of the Big Consolidated if the men can help it. Men on the way here to take the places of strikers have been headed off the men say.

The Big Consolidated employees want: First, the recognition by the company of their union, which is a part of the Amalgamated Association of Street Railway Employees of America; secondly, they want a board of arbitration to pass upon alleged violations of company rules when a man is charged with violating these rules and the union's officers and the company's management disagree upon the disposition of his case.

About 900 men are now out, but the linemen are expected to follow the conductors and motormen. The strikers have started a bus service.

The company made no attempt to move cars on Sunday. There was no activity about the yards or terminals, and the big crowds of strikers and idlers that assembled saw nothing to excite them.

A number of motormen imported by the company from other cities were taken to the Lakeview terminus of the road, and all that were not captured by the strikers were housed there for the night.

If the strikers do not return to work their places will be filled as far as possible by new men, and an attempt made to move the cars. This the strikers will not permit, or at least they say they will not, and while they have been very quiet, there is apparently a grim determination on their part to thwart the efforts of the company to move cars.

There has been some talk of a sympathetic strike on the part of the employees of the Little Consolidated company, but the leaders of the strike say they do not desire anything of the kind. On the other hand, they declare that it would only injure them to tie up the other lines, for it would lose them the sympathy of the people, who have thus far put up with inconvenience and annoyance good naturedly.

World's Production of Petroleum.

Washington, June 12.—Over 5,000,000 gallons of petroleum, according to the treasury bureau of statistics, are now produced annually in the world. Of this amount 2,500,000,000 are produced in the United States, 2,250,000,000 in Russia and the remainder is distributed among a dozen countries, Austria producing 87,000,000; Sumatra, 72,000,000; Java, 30,000,000; Canada, 29,000,000; Roumania, 24,000,000; India, 15,000,000; Japan, 8,000,000; Germany, 7,000,000; Peru, 3,000,000, and Italy about 1,000,000.

Loubet Attends the Races.

Paris, June 12.—President Loubet drove to Long Camp to attend the grand prix. He was given a great demonstration, expressing itself in one form or another along the whole route. He remained only a quarter of an hour, just long enough to witness the race, and, having congratulated the owner of the winner, returned to the Elysee. The avenues resembled a military camp.

Losses in Alaskan Trade.

San Francisco, June 12.—John A. McGee has filed a petition in bankruptcy showing liabilities aggregating \$150,000, with assets under \$20,000, subject to incumbrances that will considerably lessen their available value. The failure appears to have been incurred in shipping ventures in the Alaskan trade.

No Trouble.

Washington, June 12.—Agent Pollock telegraphs from Oklahoma, in response to an official inquiry in connection with recent alleged evictions of intruders, that there is no trouble on the Osage Indian reservation.

Brown's New President.

New York, June 12.—The Rev. Dr. W. H. P. Faunce, pastor of the Fifth Avenue Baptist church, announced that he would resign the pastorate of that church immediately to accept the presidency of Brown university.

Washington, June 12.—General Brooke, commanding at Havana, has informed the war department of the death on June 9 of Private Cooney, company A, Fifth Infantry, of intestinal gangrene.

Million-Dollar Blaze.

New Castle, On Tyne, June 12.—Three of the largest shops connected with the Armstrong-Whitworth Ordnance works here were destroyed by fire. The damage is estimated at £200,000.

FOR A BIG MAN HUNT.

Posses Being Organized by Ranchers and Railways.

BOLD OUTLAWS THE GAME.

"Hole in the Wall," a Notorious Den of Murderers and Robbers, to Be Cleared by an Army of Determined Men.

Casper, Wyo., June 12.—The "Hole in the Wall," for years a refuge for outlaws, promises to be cleansed of its desperate inhabitants.

The daring robber band which looted the Union Pacific express at Rock creek recently and escaped to the fastness of their dens in the "Hole in the Wall" in spite of the fact that they were closely pursued over plain and mountain, are to be systematically hunted to their death. To this purpose the several railroad managers with interests in this state are organizing posses and the outlaws will be given no rest. It is expected 200 men will be engaged in the big ban hunt.

The state, express and railroad companies have offered an aggregate of \$3,000 each for the heads of the members of the band. In addition to this head money in the event of success, the men who are arranging for this chase will be armed and fed by the corporations and big cattle companies of this section during the time they are engaged.

Thus they are enabled to enlist a typical band of rough riders and every man of them a dead shot. The various bands of man hunters will be accompanied by Indian trailers, bloodhounds and pack trains. The men are all to be sworn in as deputy sheriffs and will be in charge of the officers of the several counties in northwestern Wyoming.

A gorge so narrow that two horses cannot walk abreast is the only gateway to the "hole." There are paths over the granite wall for men, but not for beasts.

The six road agents who looted the Union Pacific express box will not oppose this small army of allies alone. It is estimated that at least 50 men on whose heads there are prices set, and who are wanted in many states are to be found hiding there. Some of them are following the peaceful pursuits of farmers and ranchers, and only seek to hide their identity. Many of these men are convicted criminals and some of them are under the sentence of death. It is commonly stated that Bob Taylor, the condemned Missouri murderer, is living there, herding cattle for another murderer, George Balke, who killed his wife at Cheyenne.

Situation in South Africa.

Bloemfontein, Orange Free State, June 12.—It is asserted in official circles here that President Kruger will propose to the Transvaal Raad the abolition of the dynamite monopoly. While the Orange Free State is using its influence at Pretoria to obtain reforms for the Uitlanders in the Transvaal, the railway company has sent all its available rolling stock to Johannesburg to be in readiness for a possible exodus of the population.

Sympathizers of Dreyfus Die.

Paris, June 12.—M. Trarieux, former minister of justice, gave a dinner and reception in honor of Lieutenant Colonel Picquart. Among those present were the prince and princess of Monaco, Madame Dreyfus, M. Mathieu Dreyfus and others prominent in the movement for Dreyfus revision. M. Mathieu Dreyfus threw himself into Picquart's arms while Madame Dreyfus was so much overcome that she fainted.

Favors National Inspection.

Chicago, June 12.—In his testimony before the senatorial committee, which is inquiring into the pure food question, Captain Fred Pabst of Milwaukee said a national law covering a government inspection of beer would be a very good thing, as it would protect the honest manufacturer and the honest consumer.

Labor and Employment.

Albany, N. Y., June 12.—There is a decided improvement throughout the state of employment in nearly all industries, with the exception of the building trades. This is shown by the first quarterly bulletin just issued by the bureau of labor statistics, for the quarter ending March 31.

Ordered to Alaska.

Cincinnati, June 12.—Company F, Seventh Infantry, which has been garrisoning Fort Thomas, left for San Francisco on orders to go to Alaska. Captain Charles A. Booth is in command, and the only other officer is First Lieutenant Percy Cochran, company G, Seventh Infantry, arrived from Columbus to garrison the fort.

A WOMAN'S WOES.

Makes Sensational Charges in Her Petition For Divorce.

Chicago, June 12.—Frank D. Higbee, a real estate promoter of New York city, was sued for divorce by Elizabeth D. Higbee, who makes sensational charges against the defendant. Besides charging her husband with infidelity, Mrs. Higbee asserts he attempted to poison her, and makes charges of dishonest business methods against him. Mr. Higbee lives at the Marlborough hotel in New York. He has a concession from the board of directors of the Paris exposition for the exhibition of a statue of pure gold, to be representative of a model American woman.

Barrios Arrives at El Paso.

San Francisco, June 12.—Antonio Barrios, leader of the Liberal party of Guatemala, whose followers are striving to place him in the presidential chair, now occupied by Manuel Estrada Cabrera, was a passenger on the Pacific mail steamer San Jose from Panama. He is a son of the late General Rufino Barrios, founder of the Liberal party of Guatemala, whose term as president covered a period of 14 years. Senor Barrios, while admitting that his residence in San Francisco was due to political difference between his sympathizers and the party in power, would not acknowledge that he was forced to flee from his country.

A Sugar Expert.

Washington, June 12.—The industrial commission hear a statement from S. M. Buynitzky, sugar expert in the customs bureau of the treasury department, concerning the methods in determining duties on sugar. Owing to improvements in refining processes, he said, there had been a slight increase in the quantity of refined sugar capable of being manufactured from 100 pounds of raw material since the Dingley bill became a law, the quantity then being 92½ pounds. The increase had resulted in a slightly increased differential in favor of the refiner.

Remains of Daly.

Southampton, June 12.—The remains of Austin Daly, who died in Paris on Wednesday, arrived here from Havre. The casket was inclosed in a case marked "A. D., New York." It was quietly removed from the steamer and placed in a railroad vehicle, which transferred it to the Empress dock for shipment to the United States by the American line steamer New York. Mrs. Daly will be a passenger on the same steamer.

To Investigate Elevator Trust.

Washington, June 12.—The industrial commission has appointed a subcommittee to visit the northwestern states during July and August to investigate the alleged elevator trust. John Arbuckle, the coffee and sugar magnate, has asked to be excused from testifying before the commission. He suggested that his manager, James N. Jarvie, be summoned in his stead. Mr. Jarvie will reach Washington some time next week.

Big Steamer Abandoned.

Coverack, England, June 12.—The American line steamer Paris, which ran on the rocks off the Manacles May 21, is now known to be doomed. A southeast wind is blowing, bringing in heavy seas, which are driving the steamer astern landwards. Her boilers have shifted, her false bottoms are gone, and the divers are unable to work. The officers of the steamer have left her.

Possible Strike.

Pittsburg, June 12.—A strike of 25,000 coal miners in the Central district of Pennsylvania is threatened. Secret meetings have been held at Robertsdale and Clearfield, at which the national and district officers of the United Mine Workers' association were authorized to prepare the machine workers of the whole district for a strike, to be declared within a month or six weeks.

Arbitration May Fail.

Washington, June 12.—According to private advices reaching here from The Hague, there is grave danger that one and all of the arbitration schemes before that conference will fail. It is said that Germany is markedly hostile to the arbitration principle, and is making an active canvass to secure the support of some of the second rate powers in her opposition.

A Notable Affair.

Dubuque, Ia., June 12.—The tournament of the Central Schuetzenbund of North America, to be held here June 22 to 25, promises to be one of the largest sporting events of the year. About 1,000 sharpshooters from various points between the Ohio river and the Pacific coast will contest for the \$5,000 or more offered in prizes.

Cayenne, French Guiana, June 12.—The French cruiser Sfax left the islands at 6:20 a. m., with Dreyfus on board. The latter embarked on the warship at 7 a. m. Friday.

HOWARD-BAKER BROIL.

Famous Defendants May Now Secure a Fair Trial.

CHANGE OF VENUE GRANTED.

Scene Shifts to a Thrifty Town Thirty Miles From Manchester, and a Reputation of Saturday's Tragedy Will Be Impossible.

Barboursville, Ky., June 12.—Since the change of venue was granted at Manchester, Clay county, for the Baker murder trials to be held here in the Knox county courts, this city has been in a state of excitement.

It will be impossible in this place, which has a population of between 2,000 and 3,000, with good officers for such a tragedy to occur as that at the village of Manchester Saturday evening under the shadow of the court when Tom Baker, the principal defendant, was shot dead while a prisoner of the court. As Tom Baker had killed William White, a brother of Sheriff Beverly White of Clay county, and as the crowd saw the rifle fired from a window in the sheriff's office at the time Baker fell dead into the arms of his wife, it is thought that there may soon be another trial for a change of venue to this place.

When Jesse Barrett turned state's evidence last Friday Jim and Dee Baker and Charles Wootton were released, as well as Barrett, the confession showing these parties were not implicated. Then new indictments were returned against Tom Baker and his son, Jim and Wiley Baker, a brother of Tom, for killing Wilson Howard and Burch Storr and shooting Bal Howard. Four defendants were released by Barrett's confession, and now the fifth by assassination, leaving only Wiley and Jim Baker to be transferred to the jail here unless additional arrests are made at Manchester, a point 25 miles from a telegraph or telephone station.

Colonel Williams, who has had his battalion and Gatling gun squad at Manchester the past week, where he did effective work, not only in quelling the mob Saturday night and in bringing refugees to court earlier in the week, but also in holding back the fighting feudists all week, is expected here with Wiley and Jim Baker guarded by the militia.

Object to Secrecy.

The Hague, June 12.—The chief delegates to the peace conference met to discuss German complaints against the secrecy imposed upon the delegates and the consequence of misleading reports published, and it is understood that Count Munster, head of the German delegation, was instructed to propose that the protocols for the plenary sittings of the committees be published immediately after they are drawn up.

Still Seeking Freedom.

New York, June 12.—Attorney Battele counsel for Roland B. Molineux, charged with the death of Mrs. Kate J. Adams, obtained from Justice Gildersleeve writs of prohibition, habeas corpus and certiorari in the case, citing Justice Jerome of the court of special sessions and District Attorney Gardner to appear before Justice Gildersleeve Monday, to show cause why Roland B. Molineux is detained in prison.

Strike Ordered.

Buffalo, June 12.—At a meeting of the striking freight handlers of the Erie railroad it was decided to order out all men employed inside at the various freight houses on the docks. Committees were appointed to visit each of the freight houses at once and notify the men. The strikers subsequently adopted the following: "We demand 15 cents an hour for all overtime after 10 o'clock and on Sunday work."

Police Arrangements.

Paris, June 12.—The prefecture of police has issued an announcement that 6,000 police, 20 squadrons of cavalry and a brigade of infantry will be stationed between the Elyses palace and the paddock of Long Champ, upon the occasion of President Loubet's visit at the course in order to witness the race for the Grand Prix de Paris.

They are Jacob Boutler, a carpenter of Halifax; J. I. Dunbrock, Victoria; Frank Johnson, Halifax. They report that their six companions perished on the trail.

A. W. HAMILTON,
of Mt. Sterling.

CALL FOR DEMOCRATIC CONVENTION.

Pursuant to the order of the Democratic State Executive Committee which met in Lexington, March 8th, 1899, the Democrats of Mason County are requested to meet in mass convention at the court house in the city of Maysville, on Saturday, June 17th, 1899, at 2 o'clock p. m. (standard time) and select delegates to attend the State convention to be held in Louisville, June 21st, 1899, for the purpose of nominating Democratic candidates for State offices, to be voted for November 7th, 1899.

T. D. SLATTERY,
Chairman Dem. Ex. Com. for Mason Co.
Stanley Watson, Secy.

INDICATIONS.—Fair and warmer today, preceded by showers in eastern portions; southeasterly winds; fair Tuesday.

The Republican scramble for the gubernatorial nomination continues to prove a very lively one. The fight will likely narrow down to Stone and Taylor. Returns received at their headquarters from the counties that held conventions Saturday show that Taylor carried Jefferson, Meade and Nelson counties, and Stone carried Menifee, Boyle, Powell, Breathitt and Bourbon, but the Taylor people say there is a contest in Breathitt County, while Stone will contest several wards in Louisville.

THE SCHOOL BOOK TRUST.

So far only one of the several Democratic candidates for State Superintendent of Public Instruction has openly defied the influence of the book combine, and that is H. V. McChesney, of Livingston County. In an open letter attacking the trust and pledging himself to strike it down if elected, Mr. McChesney says:

The public school system of Kentucky was designed to benefit every child in the State, but especially was it designed for the poor. In it lies the poor child's only hope to lift himself above his surroundings and breathe the air of a higher life.

The State has been generous in its provisions for instruction, but its generosity has come to naught, and the design of the system failed, in thousands of cases, because the parents have been unable to pay the exorbitant prices for school books exacted by the book trust. Does this statement sound broad? Look around you, not in some other community, but your own. Why does not your poor neighbor send his children to school? He may, in his pride, have made many excuses, but sound them to the bottom, and you will learn the truth: he can not buy the books his children need, and at the same time give them bread. And so he has sat down in front of the dead wall of despair, and sees his children grow to manhood and womanhood and go out into the world to be "hewers of wood and drawers of water." And shall these things be? Shall the book trust, in its greed, defeat the purposes of the State and the ambitions of the parent?

In the race for the Democratic nomination for Superintendent of Public Instruction, I am the only candidate who has come out into the open and fought the book trust face to face. I stand pledged, whether I shall be nominated or defeated, to use my influence with the next General Assembly to strike down this trust, and throw the door of opportunity wide open to every child in the Commonwealth, however poor and humble.

Mr. McChesney is editor of the *Smithland Banner*, and is a gentleman fully equipped for the position he seeks.

GOOD ROADS CONVENTION.

The First in Kentucky Was a Success. County Organizations to Be Established.

LEXINGTON, Ky., June 10.—The first good roads convention held in Kentucky was held here today for the formation of a State association, and it was a big success.

About 300 delegates were present, and after speeches by Lucas Moore, State Superintendent of Agriculture, and E. G. Harrison, the Government expert, the convention spent an hour or two inspecting a model road being built by the State at the State College.

Officers of the association were elected as follows: President, C. M. Hanna, of Shelbyville; Secretary, J. D. Babbage, of Cloverport.

Societies will be formed in all counties. A committee was appointed to examine road laws of other States and draft laws for this State.

"OUR BAND."

A Little Talk to Home Folks About a Home Institution of Which All Should be Proud.

No citizen of Maysville, worthy of the name, or worthy of the very many public and private benefits of which he is constantly and increasingly the recipient, can sit down and say he will mind his own business, and will not, unless he is paid for it, take any interest in or do anything for anyone else.

Indeed there is excellent authority for saying "man shall not live by bread alone." We have many private and public demands upon our time, our money and our sympathy to which we ought cheerfully to respond, and which, when intelligently met, enlarge the capacities and pleasures of the citizen, and make our civilization better and more enjoyable. We are not Filipinos, divided up into hostile bands and factions among many islands, nor wild Indians, living like so many grasshoppers, here one minute and yonder the next, but we are one corporate family.

There is among us, as part of us, and of which we are justly proud, a quasi public institution, which has its needs for encouragement and support, to wit: "The Maysville Reed and Brass Band," which in our sense of ownership and our love for our boys we call, "Our Band." There are in it fifteen men, or rather let it be said, fifteen gentlemen. It embraces in its wood, wind and brass instruments, 3 clarinettes, 3 cornets, 2 altos, 2 slide trombones, 1 baritone, 1 bass and 3 in the battery of drums. These instruments when new and up to pitch, represent a value of \$900. Its uniforms \$600. Its library of music about \$1,000, or from \$2 to \$3 per number, according to score, and unfortunately instruments, uniforms, music—yes and musicians, wear out.

It is true the musician loves his instrument and loves to play upon it, for it gives voice and tone and color to feelings which he cannot express in words. But so large an outlay of money and time as is required of so good a band as ours, can hardly be borne by the average musician, who can not make it a profession, nor give up his means of making a living.

Our band numbers among its membership at least eight musicians competent to play in Gilmore's or Herbert's band. It plays the best overtures, it delights us all with its good music. There is scarcely a man, woman or child in Maysville who has not patted the pavement with the foot, in a fond sort of way, as the cadences and pulsations of the music of "our band" have fallen on the ear.

Please let me go on record, in a modest way, as one among the many of our citizens who appreciate the musical ability, the worth of character and the good music of "our band." G. S. Judd.

CYCLERS HAVE RIGHTS

On Public Highways That Must be Respected—Two Negroes Fined For Running Over a Wheel.

Some people out in the county seem to think that parties riding bicycles have no rights on public highways. Time and again cyclers from this city have met people out on the turnpikes who would try to run them down or block the roads.

Last week Mr. Jewel Rice, of Lewisburg, met Will Alexander and Charles Williams, a couple of negroes, in a vehicle on the Fleming pike, who deliberately ran him down and wrecked his bicycle. He went before his brother, 'Squire Rice, and had warrants issued for them. The case was transferred to 'Squire Grant's court and the accused were each fined \$3 and costs, amounting to \$8.15. The charge was running over and destroying a bicycle on the public highways.

CHICKEN THIEVES.

They Visited Mr. Thomas Guilfoyle's, Saturday Night, and Left None for His Sunday Dinner.

Mr. Tom Guilfoyle last week fattened up four nice spring chickens for his Sunday dinner, and invited some friends to come and dine with him.

Saturday evening Tom evidently had a premonition that something was going to happen, for he advised his niece, who looks after his household affairs, to have the chickens dressed and placed on ice. She, however, had some shopping to do, and thought that it would be time enough to look after the chickens Sunday morning.

That night at 10 o'clock she heard some one after the chickens, and from an upper window saw a couple of thieves emptying the coop. Mr. Guilfoyle and Mr. Will Johnson were seated at the front door, and when the alarm was given they gave chase, but the thieves and Tom's chickens disappeared in the high weeds east of the L. and N. depot.

While searching for the thieves, they came across a man apparently trying to conceal himself behind some timbers in the L. and N. yard, and Tom was in the act of smashing him on the head with a rock when it was discovered that it was Jimmie Hunt, and not one of the thieves. Jimmie had a narrow escape.

GLAD THEY'RE OUT.

What Lexington Parties Say of Their Sale to Col. Baldwin.

[Lexington Herald.]

County Judge Bullock, Auditor Pearce and Hon. O. J. Bronston, who have been in Maysville for several days looking after the interest of the city and county in the Maysville and Lexington Turnpike Company, returned to the city Friday night, all pleased with the final outcome of the squabble.

Judge Bullock was seen by a reporter for The Herald shortly after his arrival and he told of the success the Lexington party had with Col. Baldwin, and that the county had finally disposed of its interest in the road for all time to come. "Col. Baldwin finally came to the terms which we first proposed to him," said Judge Bullock, "and rather than make a long fight in the courts we decided to sell and get through with the matter. If we had not sold, Baldwin would have gone to the United States Court and applied for a receiver and would have been allowed his attorney's fees and probably in the long-run would have been appointed receiver. The original proposition the county made to him was that he buy all of Fayette's stock at a price of about \$20 per share, and the settlement made to-day was virtually on the basis of \$20 per share. This sale again places Col. Baldwin in control and relieves me of the duties of President and also knocks out the new Board of Directors. The

same settlement was made with the city and the money will be forthcoming just as soon as the transfers of stock are made, which will be very soon."

Relative to the promise made by Col. Baldwin to pay a certain Lexington man \$1,000 if he sold the pike to Fayette County, Judge Bullock said that Baldwin had made a proposition to Auditor Pearce that if he sold the pike to the county for a figure of about \$20,000 he would receive \$1,000 and that Mr. Pearce had letters and telegrams to that effect but as Baldwin had himself made the sale and the figure was below \$20,000, it was claimed that Mr. Pearce was not entitled to the money. It is thought, however, that a suit will follow to secure the money.

THE TIGER TOBACCO TRANSPLANTER.

Makes the farmer absolutely independent of the weather. He sets his plants when he gets his ground ready, rain or shine. The superiority of the Tiger over all other Transplanters has been plainly demonstrated during seasons of severe drouth, when experiment proved it to be the only machine that could be depended upon to give a good stand of plan s under any and all weather conditions. With the TIGER the plants are properly set. The roots are in the puddle formed by the water, loose earth being forced down around and above the plant. In effect the water valve on the TIGER stands still at each hill long enough to pour the water precisely where it is wanted—a feature that cannot be duplicated by any machine devised by man. THE TIGER PUTS THE WATER JUST WHERE IT IS NEEDED—AT THE ROOTS. There are many superior points on the TIGER that makes it far ahead of any other Transplanter ever put on the market. We ask your inspection of same and that you place your order at once, as the factory could not supply the demand last season and we, ourselves, were only able to get a portion of our orders filled. So do not delay, but place your order with us at once, that we may be able to supply you before our stock is exhausted. Remember first come first served.
